LHD Discussion

Instructions (30 minutes):

1. **20 minutes:**
   a. **DISCUSSION QUESTIONS:** Using the materials attached pick one or two of the measures and go through these questions:
      i. What have you found to be the most effective strategies to achieve these performance measures?
      ii. What challenges have you encountered in working to achieve these performance measures?
      iii. Are there any opportunities to collaborate with other providers serving the same patients to achieve common performance measures?
2. **10 minutes**: Volunteers from groups will report key thoughts or questions to larger group.

   - **Materials:**
     o Discussion Questions
     o List of Measures in the Bundle and Which DSRIP providers have those measures
     o List of activities providers are implementing to achieve their measures (not all inclusive)
   - **Note Taker:** Record thoughts and comments on post it paper:
     o Identify the measure(s) discussed
     o Key notes
     o Questions
     o Unique Ideas
   - **Introductions (very quick):** Name, Organization, Your Role, Overall approach to achieving measure selected (in two sentences or less)

Measures by LHD

RHP 9, 10, & 18 Activities Providers are Implementing to Achieve LHD Measures

Common Themes	Activity	Provider
Provision of vaccinations to target population	Tarrant County Public Health will provide vaccinations as needed to prevent childhood and adolescent illnesses as well as Flu and Pneumonia to the residents of Tarrant County.	Tarrant County
Provision of screening and follow up services	This is a new core activity being implemented in DY7-8 and involves TB testing/screening and treatment of Latent TB infection (LTBI) with the goal of improving the LTBI treatment completion rate by mainly utilizing shorter course treatments in conjunction with appropriate health education and outreach.	Dallas County

Common Themes	Activity	Provider
	Tarrant County Public Health will provide screening services for cancer, tuberculosis and sexually transmitted diseases to clients who would otherwise not receive screening due to income or lack of knowledge.	Tarrant County
Utilization of care management and/or chronic care management services, including education in chronic disease self-management	A reduction in the patient HBA1C is the AIM of the DSRIP project. A reduction of only 1% can reduce complication by 40%. DCPH has established a successful Diabetic Education and Case Management team, of licensed and non-license professionals in both Denton and Lewisville locations. All team member are fluent in the native Spanish language, eliminating one of the largest barriers to care. This team is responsible of appointment follow up, face-to-face interpretation with patient and provider, medication distribution, in house CLIA waived testing, (HBA1C, Retinal Scan, vitals, BG levels), and self-management education.	Denton County
