Program and Funding Mechanics Protocol:

Transformational Extension Protocol (Menu):

Performance Bonus Pool:

*Dependability on other providers.
Data collection questionable accuracy
Outdated data.*

Molina Healthcare

Regional Health Partnership: _____ Provider Name: _____

Please Give Your Feedback On:

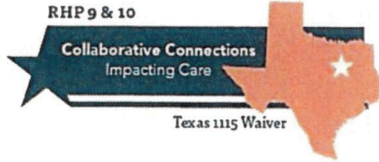

Program and Funding Mechanics Protocol:

Transformational Extension Protocol (Menu):

Performance Bonus Pool:

- ① Gap - No measures related to integration of physical + mental health
 - ② For extension year, select measures that are in progress; D&RIP may change under new president and HHS Secretary
 - ③ Measures selected should not be easy but also not way out of reach - need RHP's to perceive some opportunity to earn bonus + it should be a meaningful amount

February 9, 2016

Regional Health Partnership: 10 Provider Name: Cook Children's

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

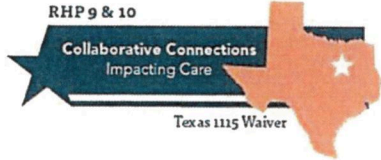

No feedback at this time

Transformational Extension Protocol (Menu):

The menu is limited but I believe it provides an adequate selection for both adult & pediatric facilities to utilize.

Performance Bonus Pool:

Data sharing is the biggest concern.

Regional Health Partnership: 10 Provider Name: JRS

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

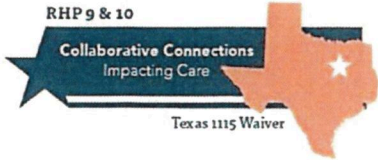

Performance pool needs to be based on recent data,

Transformational Extension Protocol (Menu):

Be sure DY7 is a logical extension of DY6,

Performance Bonus Pool:

Regional Health Partnership: 10 Provider Name: MAMR Tarlant

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

Transformational Extension Protocol (Menu):

Performance Bonus Pool:

- Will all providers need to meet all assigned measures for region to get paid? (PCP, hospitals, Behavioral health providers)
 - how will state generated data capture LICU %?
 - what happens to PBP dollars if Region does not meet measure goal?
 - How are PBP dollars divided if we have multiple measures? If we meet one measure but not another, do we get a portion of the dollars.

Regional Health Partnership: 9 Provider Name: PARKLAND

Please Give Your Feedback On:

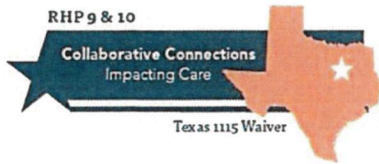

Program and Funding Mechanics Protocol:

Transformational Extension Protocol (Menu):

- REPORTING MLIU GOALS MAKES SENSE, HOWEVER, MLIU GOALS SEEM COUNTERPRODUCTIVE AND UNNECESSARY. REDUCING MLIU IS COUNTERPRODUCTIVE TO MEDICAID EXPANSION, AND INCREASING MLIU SEEMS COUNTERPRODUCTIVE TO PROCURING COMMERCIAL INSURANCE AND ACA.

Performance Bonus Pool:

Regional Health Partnership: 10 Provider Name: JPS

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

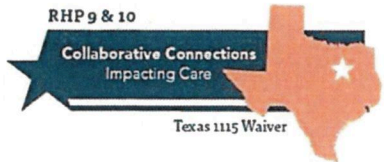

Really like the change to MLU # goals instead of MLU % goals

Transformational Extension Protocol (Menu):

Skinny menu too skinny for hospital options

Performance Bonus Pool:

Concern over 2 year lag between available Medicaid claims data and performance measurement

Regional Health Partnership: 10 Provider Name: UNTHSC

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

For Cat 1 & 2, if the ^{project} population is 100% Medicaid - will the project be penalized for the QPS & MEIU metrics measuring the same population?

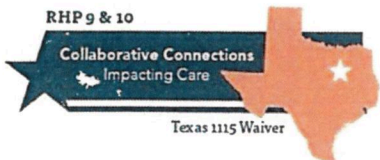

Need further clarification of how Regional Performance Pool works & how it affects payments. For instance, if RPP is taken from Cat 3, but provider doesn't meet or report Cat 3, does RPP come out of Cat 1/2?

Transformational Extension Protocol (Menu):

Will projects have to prove use of evidence based models?
There are very limited options for Behavioral Health when one size doesn't fit all.

Performance Bonus Pool:

Current menu not designed for non-hospital providers. The population analysis is not representative of many of our project population since it is restricted to Medicaid. If we have MEIU requirements that have new definitions, the measurement must match.

Regional Health Partnership: 9

Provider Name: Metrocare

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

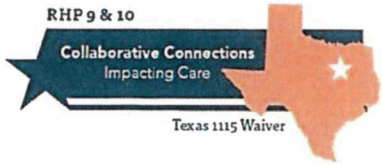

Lacked status update on waiver 2.0 as information was redundant to previously held RHP learning collaborative.

Transformational Extension Protocol (Menu):

Excited to see new options for evidence based programs / models of care.

Performance Bonus Pool:

Lacked metrics over integrated care

Regional Health Partnership: _____ Provider Name: _____

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

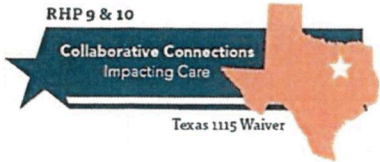

*Please - don't renew programs -
Extend Medicaid in state of Texas and
enforce one single data point!
Enforce all to give/submit data in one location
for all to access with state management.*

Transformational Extension Protocol (Menu):

Repeat of above!

Performance Bonus Pool:

Repeat of above!

Regional Health Partnership: _____ Provider Name: _____

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

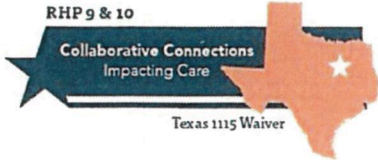

*Along a how is it going to be measured, how do
continue w/ date measurements changes
how can we measure what we do not know*

Transformational Extension Protocol (Menu):

there are very few options

Performance Bonus Pool:

*- how can we be graded on past (old data), 2 yrs. ago
- is the measure met, - the measure this would be
one size fits all ... of which is not the case,
rural, city, urban*

Regional Health Partnership: 10 Provider Name: JPS Health Network

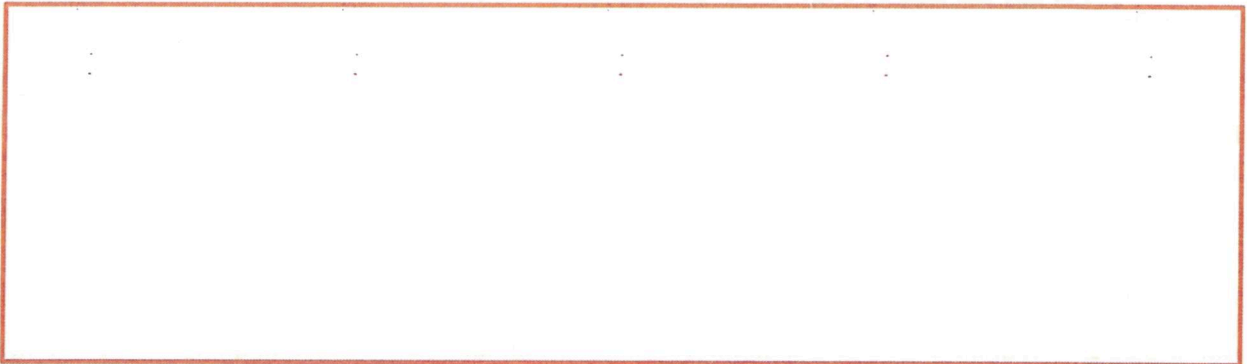

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

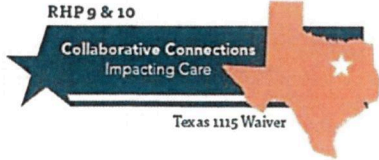

Would like clarification on Core Components reporting?
Does it just include OY6 work or previous work?

Transformational Extension Protocol (Menu):

Performance Bonus Pool:

24 month lag for Bonus Pool means you are not in position to actually change the metric you are being held accountable for. We need to be measured on items that are current or in future, not the past.
- Because Regions are often very diverse, some measures might not really be suitable for providers through the region.

Regional Health Partnership: 10 Provider Name: MHMR Tarrant County

Please Give Your Feedback On:

Program and Funding Mechanics Protocol:

To continue these programs in the future → allow billing for care coordination by those other than the physician, APRN or PA. Allow billing in the community for home visits to do medication reconciliation. Allow billing for diabetes checks, education at home. Allow billing for social service determinants → linking to social services such as housing, food, etc. Allow chronic disease management by nurses to be paid through home visits.

Transformational Extension Protocol (Menu):

The menu is too "thin". Particularly for behavioral health and intellectual and developmental disabilities.

Performance Bonus Pool:

As a behavioral health provider there need to be enough project choices as well as it will be very difficult for
