

Texas DSRIP DY 9–10 Requirements Summary

For more information on the 1115 Healthcare Transformation Waiver Renewal [click here](#)

RHP Plan Update Overview

- ▶ Regional Healthcare Partnerships (RHP) are required to submit updated RHP Plan for DY 9-10.
- ▶ HHSC requires the RHP Plan to seek stakeholder feedback.

We want your feedback!

The RHP 9 Plan Update Draft Template can be viewed on our website, texasrhp9.com

Category A – Core Activities

- ▶ Required reporting for Category A in DY 9-10 includes progress on Core Activities, Alternative Payment Model (APM) arrangements, costs and savings, and collaborative activities.
- ▶ The Category A requirements were developed to serve as an opportunity for Performing Providers to move further towards sustainability of their transformed systems, including development of APMs to continue services for Medicaid and low-income or uninsured (MLIU) individuals after DSRIP ends.
- ▶ The listing of Core Activities in the Measure Bundle Protocol reflects those project areas that have been determined to be the most transformational and will support continuation of the work begun by Performing Providers during the first years of DSRIP.
- ▶ These Core Activities will be continued or implemented by a Performing Provider to support achievement of its Category C measure goals.

Category B – System Definition

- ▶ IN DY 7-8 DSRIP shifted from project-level reporting to system-level reporting, HHSC wanted to ensure that providers maintained a focus on serving the DSRIP target population: MLIU individuals.
- ▶ To that end, Category B requires each Performing Provider to report the total number of individuals and the number of MLIU individuals served by its system during each DY. New in DY 9-10 providers will report Medicaid and LIU populations number separately.
- ▶ The Measure Bundle Protocol set out parameters for a Performing Provider to define its “system” to reflect the Performing Provider’s current care landscape that is striving to advance the Triple Aim: improving the patient experience of care; improving the health of populations; and reducing the per capita cost of health care.

Category C – Outcome Measure Bundles

- ▶ Targeted measure bundles have been developed for hospitals and physician practices, and lists of measures are available for community mental health centers and local health departments.
- ▶ Measure Bundles consist of measures that share a unified theme, apply to a similar population, and are impacted by similar activities.
- ▶ DY 9-10 Measure Bundles remained predominately the same. Bundling measures allows for ease in measure selection and approval, increases standardization of measures across the state for hospitals and physician practices with similar activities, facilitates the use of regional networks to identify best practices and share innovative ideas, and continues to build on the foundation set in the initial waiver period while providing additional opportunities for transforming the healthcare system and bending the cost curve.
- ▶ The menu of available Measure Bundles for hospitals and physician practices and measures for community mental health centers and local health departments were built with measures from common DY2-6 Category 3 pay-for-performance (P4P) measures; new P4P measures added from authoritative sources, with a preference for measures endorsed by the National Quality Forum; and innovative measures as needed.

Category D – Statewide Reporting Measure Bundles

- ▶ For DY7-10, the Category D Statewide Reporting Measure Bundles have replaced the former Category 4 reporting on population-focused measures and added measures for physician practices, community mental health centers and local health departments.
- ▶ The Statewide Reporting Measure Bundles align with the MLIU population, are identified as high priority given the health care needs and issues of the patient population served, and are viewed as valid health care indicators to inform and identify areas for improvement in population health within the health care system.
- ▶ The emphasis of Category D is on the reporting of population health measures to gain information on and understanding of the health status of key populations and to build the capacity for reporting on a comprehensive set of population health metrics.

RHP 9 Plan Update for DY9-10

DRAFT

How to submit feedback!

- ▶ This information is being made available to stakeholders for their review and input.
- ▶ Stakeholders are invited to provide comments through the “Contact Us” function on the RHP 9 Website.
- ▶ Comments will be taken between Wednesday, November 13, 2019 through Friday, November 22, 2019.
- ▶ Click here to submit comments to: [RHP 9 Stakeholder Feedback \(Contact Us\)](#)

RHP 9 Organization: DSRIP Performing Providers

▶ Hospitals

- Baylor Scott & White Irving
- Baylor University Medical Center
- Children's Health
- City Hospital at White Rock Lake
- Methodist Charlton Medical Center
- Methodist Dallas Medical Center
- Methodist Richardson Health Center
- Texas Health Dallas
- Texas Health Denton
- Texas Health Kaufman
- Medical City Lewisville
- Medical City Las Colinas
- Medical City Dallas
- Medical City Denton
- Parkland Health & Hospital System*
- UT Southwestern Medical Center

▶ Community Mental Health Centers

- Metrocare Services
- Denton County MHMR Center
- Lakes Regional Community Center

▶ Local Health Departments

- Dallas County Health & Human Services
- Denton County Health & Human Services

▶ Dental Provider

- Texas A&M University – College of Dentistry

▶ **DY 9-10 Change: 1 Hospital Provider Withdrew**

RHP 9 Community Needs Assessment

Key findings from current Community Health Needs Assessment (2017)

- ▶ This assessment was completed within the last two years and there have been no major changes in the regional priorities and associated high-level strategies in the primary community health needs of RHP 9.
 - A. Capacity and Access - More Providers and Better Health Care Coverage: Improve Access to Primary and Specialty Care in Rural Areas.
 - B. Chronic Diseases Care – Focused Care on Specific Chronic Diseases: Cardiovascular, Diabetes, Lung Cancer, Breast Cancer, Colorectal Cancer, and Respiratory Diseases.
 - C. Care Coordination- Organized Culturally Competent Patient Care: Activities and Sharing of Information Across all Patient Care Participants including Oral Health and Palliative Care.
 - D. Behavioral Health - Mental Health and Substance Abuse: Collaborative and Coordinated Efforts to Address Disparities Associated with Mental Health and Substance Abuse.
 - E. Infant and Maternal Health: Community-Level Education, Awareness, and Coordination with Social Services to Reduce Infant and Maternal Mortality.

RHP 9 Community Needs Assessment

- ▶ Bridging the Gap: In addition to above-focused priorities the following themes are key factors that were identified across all priority areas as ways to enhance the ability to implement sustainable and improved care for the patient populations identified in this community needs assessment:
 - Technology in Healthcare
 - Promoting Telehealth/ Telepsych
 - Use of technology to improve health outcomes
 - Health information sharing strategies
 - Addressing Social Determinants of Health
 - Advancing Nursing Workforce

The full RHP 9 Community Needs Assessment is available at texasrhp9.com

Stakeholder Engagement & Learning Collaboratives (DY 9–10)

- ▶ Stakeholder Pow–Wow’s – Continuous Stakeholder Engagement
 - Share updates and changes of Waiver
 - Obtain feedback and input on Waiver activities

- ▶ Collaborative Connections – Impacting Care: A Learning Collaborative Summit sponsored by RHP 9, 10, & 18 – (Dates: TBD for 2020 & 2021)

- ▶ RHP 9 Bi–Annual Event – (Dates: TBD)

- ▶ Cohorts:
 - Existing Cross Regional Cohorts:
 - Behavioral Health
 - Chronic Disease Management
 - Patient Navigation ED Diversion
 - Ad hoc as needed and requested by providers

RHP 9 – Regional Valuations

By Performing Provider Type

Performing Provider Type	DY9 Valuation	DY10 Valuation	Total Valuation
Hospitals	\$315,434,725.20	\$269,334,605.31	\$584,769,330.51

Dental (1)	14,238	14,238	16,287	87.42%

Category C – Outcome Measure Bundles Summary

- ▶ Participating Providers based on prescribed criteria were able to make changes to their selected Category C measures and if appropriate select new ones from a menu of outcome measures to reach their identified Minimum Point Threshold (MPT)
- ▶ Participating Providers selected bundles or measures that aligned with the regional community needs assessment and organizational goals and strategies to improve patient outcomes.
- ▶ RHP 9 for DY 9-10
 - Total Provider MPTs = 423 (Decrease of 41 MPTs from DY7-8)
 - Total Points Selected = 585 (Decrease of 45 Points from DY7-8)
